Consult your local codes before ordering.

Installation is easy.

Package Lift's rail can be cut to size at the factory or on site. It simply mounts to the stairs (right or left side) with brackets. The cable and motor are installed and the platform is set in place.

Powered by a reliable drive system.

Package Lift's motor and cable maximize smooth operation and reliable performance. The CSA approval certifies it's been time-tested to perform to high standards.

Built-in safety.

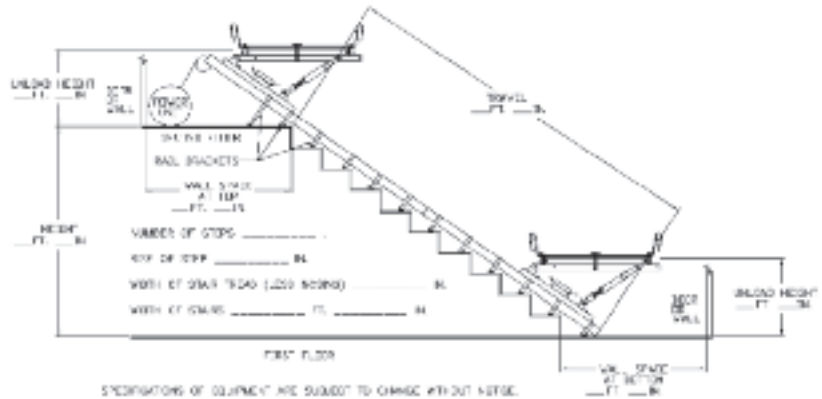

Package Lift features an instantaneous broken cable safety device and slack cable disconnect that disable the unit if a cable breaks.
